Newsletter for Village of the Hills **MAY 2012**

This is provided as a brief overview of activities for the month.

Daily activities include regular patrols, driving down every street at least twice a day, investigate and or follow up on incidents reported and observed by residents. Work stationary radar on streets to slow down vehicles. Answer 911 calls within the community. Follow school buses through the community for children safety. Make community contacts with residents inside the community.

STEP= selected traffic enforcement program

I assisted a resident who got stuck in-between the lift bar and the back gate. Worked STEP throughout the Hills. I gave direction to a lost visitor. I responded to # 5 Tournay Ln. on a 911 hang up, everything checked ok. I received another report about the deer with the lid around its neck. Talked with Angie about the deer and the options we had. Received a report of a alarm #8 Hightrail Way, worker on site no code checked ok. Received second alarm at #8 Hightrail Way, met with resident and advised him of the prior worker. I responded to # 37 Waterfall in reference to a Bobcat on his roof. It ended up being a large Raccoon, resident was given wildlife rescue information. The back gate guard was having problem with workers wanting in with no drivers' license, upon arrival the persons had already left. I spoke to a resident at #49 Stillmeadow if reference to his car being egged overnight, also passed on to security.
