

Due to COVID-19, Waste Connections has announced that all Residential services are reduced to the collection of CART CONTENTS ONLY. Contents placed outside the cart will not be collected, in order to minimize the risk of exposure through manual collection or “pickup by hand”. Residential Bulk & Brush services are temporarily suspended. The change to “cart only” on Residential Routes will be in effect for six weeks, beginning Monday, March 23.

Household trash, bags from kitchens and restrooms, should remain a top priority for those waste streams that go into the carts. That’s to say, if there is only enough room in the cart remaining for one bag from the kitchen or one bag of yard trimmings, we urge residents to use the space for the bag from the kitchen for health and sanitation purposes. Household trash that is not properly bagged and tied is susceptible to spills and further increases the risk of exposure for personnel to potentially infectious waste. Please bag and tie all trash before depositing it in the carts.

We appreciate your assistance sharing this message with your neighbors as we all work together to remain healthy.

### **Covid-19 Service Restriction: Effective March 23, 2020**

All residential services are reduced to collection of “cart contents only” in order to reduce chance of exposure of personnel with solid waste that may occur if handling by hand. Contents placed outside the cart will not be collected.
